“ Happiness has many roots,  
but none more important than security.”  
- E. R. Stettinius

## Foreword

For 116 years now, Godrej Locking Solutions and Systems, has delivered to the nation, security for its loved ones and a bond of deep trust. Today as urban homes and lives go through a paradigm change, their needs are beginning to change too. In anticipation of this immediate future, where pride of ownership, international quality, design and aesthetics are as integral to purchase as trust, we have begun to change the lock on every Indian door into a work of art, technology and intuitive engineering.

Over the years, our locks have changed in form, function and scope of application, but one thing remains constant – a robust belief in our products and services. As a part of our dedicated commitment to provide premium and comprehensive locking solutions and to build a future ready business environment, we have introduced category firsts in every segment. May it be architectural hardware or home safety necessities, Godrej has made sure its reputation of innovation is unbeatable. Our designer range of door handles turn heads faster than any model, while ensuring its tenacity is never compromised. The Astro makes the perfect love affair for main doors; while the Altrix brings the strength of the army right to your doorstep. Even concealed floor springs are made with the same dedication we give to our flagship products, because we believe perfection really does lie in the details. These technically advanced products offer complete solutions that are extremely secure and robust, easy to install and operate, and flexible enough to meet challenges of diverse verticals and applications.

With our locks reaching several countries around the world over a period of time, the brand has come a long way in delivering world-class smart locking solutions. We take pride in revolutionising the very perception of a locking device. From a mere functionality at an entry and exit point we have made them a proud pause at the door step, a moment to take in the significance of how far we have come.

Shyam Motwani  
Executive Vice President & Business Head  
Godrej Locking Solutions and Systems

## About us

From household appliances, furniture and food to real estate development, industrial engineering, security and agricultural care, Godrej's relentless pursuit of excellence has enriched lives across the globe.

Staying true to its core values of fairness, transparency and ethical dealing, the Group has built a strong network of over 50 company - owned

retail stores, more than 2,200 wholesale dealers and over 18,000 retail outlets.

Godrej Locking Solutions and Systems follows the same tradition of excellence with a spectacular range of choices in design, strengths of security and constant innovation that anticipates every need for safety that could possibly arise for the contemporary home or business.

## Research & Development

With judicious investments in technology and talents, Godrej is always a step ahead.

Keeping an eye on the complex needs of this day and age, locks are produced using world-class equipment and the latest manufacturing methods like the single piece flow (SPF). Each and

every locking system rolled out of the factory bears the Godrej hallmark of trust and reliability.

The Godrej System of Five Security Strengths is the result of such R&D for the specific purpose of offering the widest possible choice to our clients, from simple lever fixtures to modern electronic mechanisms.

## Technology

In keeping with the Company's high standards, the latest equipment and processes have been put into play, offering greater flexibility in manufacturing and a wider spectrum in solutions. These highly specialized machines are equipped

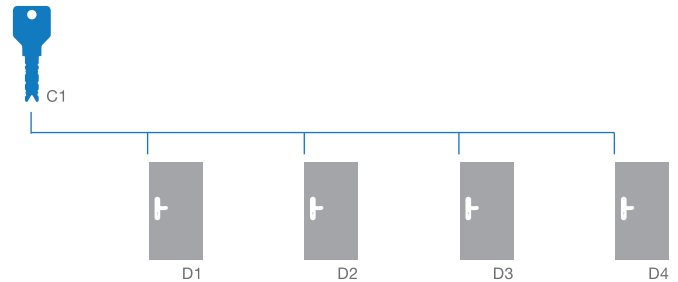

with the latest precision technology which ensures that each lock and key produced in the factory is consistent in both quality and function. The logos, too, are etched using modern laser technology.

## Common Key System

It is a set of identical locks operable by the same key.

*Examples:*

*Toilets, Ducts, Service rooms*

## Master Key System

### What is Master Key System?

A Master Key is a key which can operate all the distinct locks in a predefined set. Each of these locks are also operable with their individual (change) keys.

### What are the benefits?

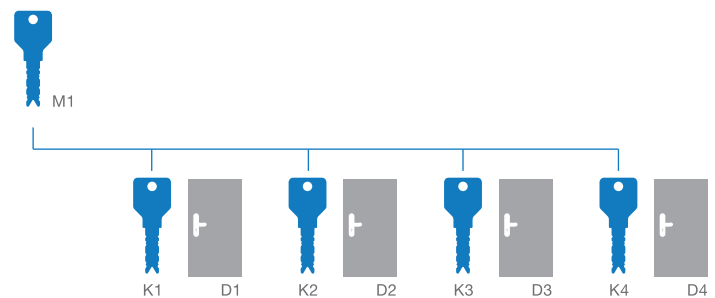

- Robust security without the confusion of multiple keys
- Easy to define and map access of personnel. Thus, security system within the work group can be simplified and organised.
- All types of locking points which employ different systems (mortise cylinders, cylindrical locks, padlocks on the same technology platform) for various requirements (main entrance, internal doors, shutters) can be locked with just one key.

### Master Key Arrangement

- The system consists of locks which are fitted on various application areas (D1, D2 ...)
- Each key is operated by an individually assigned key (K1, K2 ....) previously referred to as change key.
- The Master Key supersedes all these change keys and can be used to open all these locks in the system.

*Examples:*

*Floor wise Master Key System*

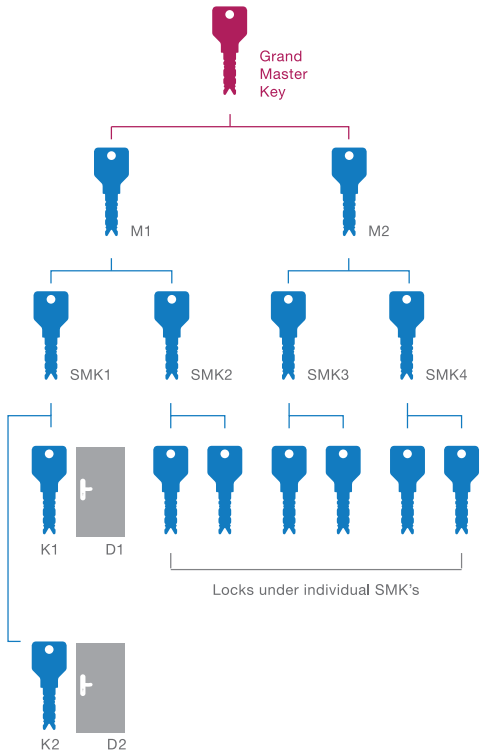

### Grand Master Key Arrangement

- It is a group of small Master Key systems operable by one Grand Master Key. The Grand Master Key operates all the locks in the entire system. Each lock is operated individually by a separate key.

Examples:

Floor wise Master Key & Grand Master Key for the entire building (even across buildings)

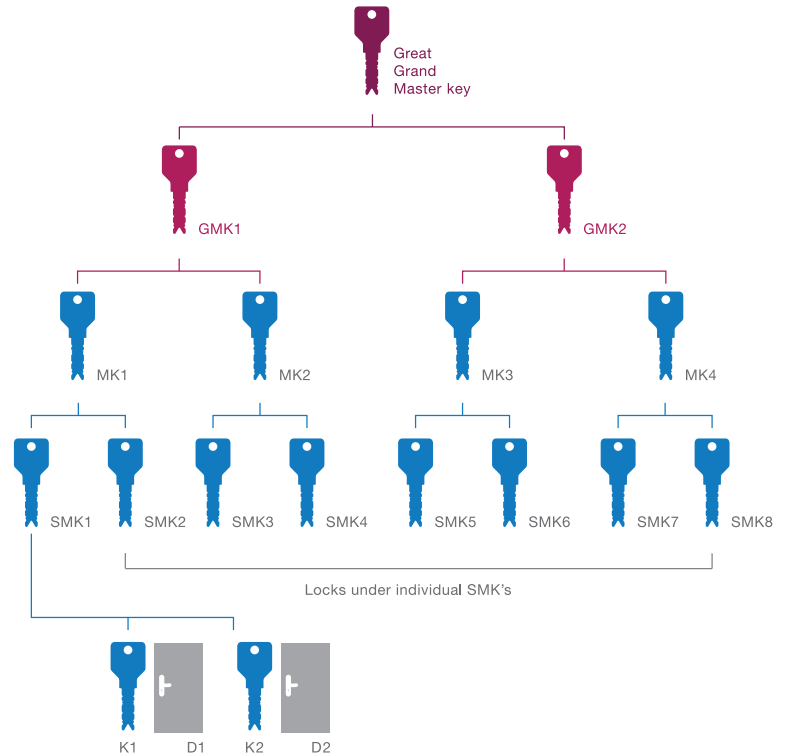

### Great Grand Master Key Arrangement

- Great Grand Master Key is a group of some Grand Master Key systems operable by one Great Grand Master Key. This key operates all the locks in the entire system.

Examples:

Floorwise Master Key & Grand Master Key for the building & GGMK for the entire project.

## Standards & Approvals

We have the certificates for the following standards & accreditations:

■ TUV

■ Products are tested to certificate of conformity:

1] DIN EN 12209 : 2004-03

Europrofile Mortise Lock 240mm  
(Backset 50/55/60/65/70 mm)

Classification:

3	H	7	0	0	E	6	P	C	1	0

		2			

4] UL 228: Heavy Duty Door Closer

■ Commendation Certificate for Significant Achievement on the journey towards Business Excellence awarded by CII Exim Bank Business Excellence Award jury

ANSI

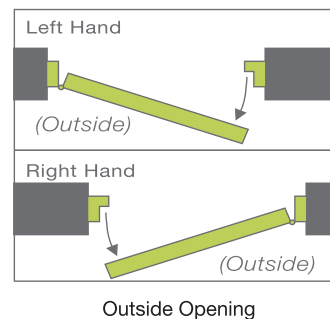

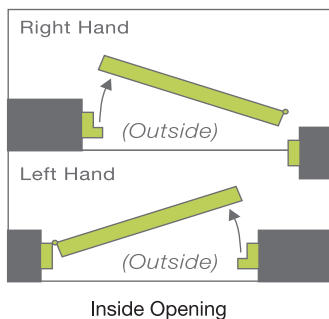

## Handing of doors

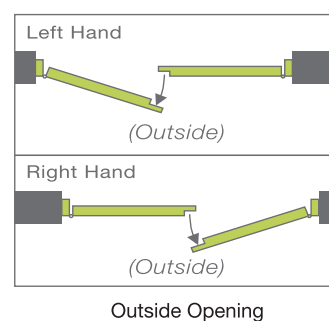

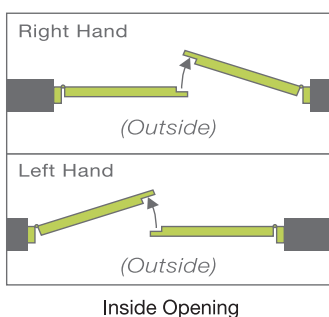

Hinged doors can open in one of four ways and this determines whether the door is left or right -handed.

Double doors with plain meeting stiles are also handed in this manner. Likewise, double rebated doors can open in one of four ways and this will determine whether the door is left or right -handed.

### Single Doors

### Double Rebated

## Security Strengths

Godrej provides a total locking solution, offering locks at various security strengths to ensure optimum safety.

- Security Strength 1 - Basic security
- Security Strength 2 - Ultra technology
- Security Strength 3 - EXS technology
- Security Strength 4 - EVVA 3KS technology
- Security Strength 5 - i - Secure

---

Godrej Security Strength 1 locks come with the conventional mechanical locking system through basic security systems which have levers, wafers, tumblers and single-row pin-cylinder technologies.

---

Godrej Security Strength 2 locks have highly precise computerised dimple keys with Advanced multi-row pin-cylinder technology. In this the maximum number of combinations (key differs) that can be provided is up to 100 million i.e. they can only be opened by its own key and to create a duplicate key, one requires the original key.

---

Godrej Security Strength 3 locks come with Advanced, Angular multi-row pin-cylinder technology. The maximum number of combinations (key differs) that can be provided is up to 2 billion and a highly complex system of master key solutions is possible.

---

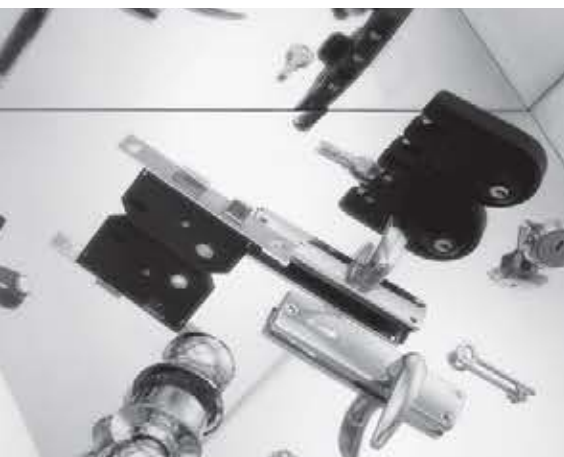

The highest level of security, "Godrej EVVA", in mechanical locks comes with a revolutionary 3 Curve system with floating pin, sidebars and locking bar. This conforms to European standard EN 1303. Combinations up to 30 trillion are available ensuring generations of non-repeating keys.

---

Unlike the conventional mechanical locks, Godrej SALTO IC card and i-Secure electronic technology are based on virtual networks which function through access control systems and has combination up to 200 trillion.

Use Ultra Retrofit Adaptors to upgrade from any existing Rim Lock to a superior, unpickable Godrej Ultra Lock, conveniently without the hassle of getting any additional carpentry work done on your existing door.

### 3KS PENTABOLT 2C (I/O) - SATIN NICKEL

Product Code: 8157

Also available in Deadbolt

### PENTABOLT 1CK (I/O) - SATIN NICKEL

Product Code: 9409

Also available in outside opening and Deadbolt

### PENTABOLT 2C (I/O) - ANTIQUE FINISH

Product Code: 8160

Also available in Latchbolt

### 3KS-The ultimate mechanical locking system

The innovative and unique 3-Kurve System represents a revolutionary cylinder system. The 3KS system is characterised by its springless principle, its important combination possibilities and its user friendly reversible ke. This makes it the ideal security for single door protection and Master Key Systems.

Highest Functional Reliability is guaranteed by 12 springless locking pins which are forced in specific positions and checked by two side bars. An additional bottom bar checks the edge profiles of the key.

#### Features

- Springless
- Unlimited Combinations
- Unpickable, Unduplicable
- High Master Key Combinations
- International Standards
- Easy Retrofittable
- Easy upgrade from existing locking systems
- Reversible Key System
- Premium range of locking systems

**ASTRO 1CK - PEARL WHITE**

Product Code: 7506

Also available in outside opening and Deadbolt

**ALTRIX 2C - ROYAL TITANIUM**

Product Code: 7504 2C Deadbolt

Also available in Latchbolt

**ALTRIX 1CK (I/O) - PEARL WHITE**

Product Code: 7571

Also available in outside opening and Deadbolt

**EXS Angular Technology**

Godrej EXS angular technology comes with 16 precisely positioned angular pins placed at a special angle to ensure complete unpickability, giving higher security.

Each key is unique – 1 in 2 billion

Computerized precision, impossible to duplicate, without the original key.

Angular technology comprising 16 pins placed at a specific angle for assured unpickability.

### i-SECURE KEYPAD CABINET LOCK

Product Code: 8303 - Latch  
8304 - Bolt

### i-Button Key

The 'i-Button Key' is your personalized key to protect properties and information. It is a small computer chip enclosed in a clam-shell, steel container called MircoCan which is suited to harsh operating environments and weather conditions. The chip, essentially, serves as a stand-alone database. So, when attached to an object or carried by a person, it identifies and carries relevant information that can be accessed instantly. For instance,

when you touch the correct key to an i-Button reader, it will enable the unlocking of your door.

Each i-Button is assigned a serial number that becomes its unique identity. This means that each key is as singular as being one among 281 trillion of its kind. It is small and portable enough to attach to a key fob, ring, watch or other personal items and be used for access control and home security.

Architectural Hardware

## Door Control - Door Closer

**DOOR CLOSER C102 SINGLE SPEED**

Product Code: 8340 - 60 kg

**DOOR CLOSER HEAVY DUTY**

Product Code: 1938 - 60 kg

**DOOR CLOSER C071**

Product Code: 8292 - Silver Finish 60 Kg  
7345 - Gold Finish 60 Kg

**DOOR CLOSER C752**

Product Code: 7841-Normal Opening 45 Kg  
7849-Hold Opening 45 Kg

**DOOR CLOSER SLEEK**

Product Code: 8155 - 60 Kg

**DOOR CLOSER C680**

Product Code: 8156 - 40 to 80 Kg

**DOOR CLOSER D771**

Product Code: 9418 - 120 kg

**DOOR CLOSER T72V**

Product Code: 7880 - 80 kg (T72V)  
7899 - 80 kg with backcheck (T834)  
7881 - 100 kg with backcheck (T83H)

**DOOR CLOSER CONCEALED C680**

Product Code: 3798 - 60 kg

**DOOR CLOSER T83J**

Product Code: 7882 - 120 kg with  
backcheck and delay action

**DOOR CLOSER T610**

Product Code: 7883 - 60 kg (T610)  
7884 - 80 kg (T620)

**DOOR CLOSER CONCEALED T660**

Product Code: 7885 - 60 kg

## Door Control - Floor Spring

**FLOOR SPRING D60**

Product Code: 7477 - 60 kg

**FLOOR SPRING B710**

Product Code: 8341 - 80 kg

**FLOOR SPRING D80**

Product Code: 8293 - 80 kg

**FLOOR SPRING D100**

Product Code: 8294 - 100 kg

**FLOOR SPRING B803**

Product Code: 7886 - 80 kg  
7887 - 100 kg

**FLOOR SPRING D120/150**

Product Code: 7381 - 120 kg  
7382 - 150 kg

## Glass Hardware - Patch Fitting

---

### TOP PATCH

Product Code: 7757

3657 - Top Patch with Pivot

---

### BOTTOM PATCH

Product Code: 7758

---

### L ARM PATCH WITH PIVOT

Product Code: 7760

---

### L CONNECT PATCH

180 degrees: 7327 (8mm), 7328 (10mm),  
7329 (12mm)  
135 degrees: 7330 (8mm), 7331 (10mm),  
7332 (12mm)  
90 degrees: 7333 (8mm), 7334 (10mm),  
7335 (12mm)

---

### ONE SIDE SEAL

Product Code: 7336 (8mm)  
7337 (10mm)  
7338 (12mm)

---

### WATER DEFLECTOR SEAL

Product Code: 7342(8mm)  
7343 (10mm)  
7344 (12mm)

---

### SHOWER DOOR KNOB NO.3

Product Code: 3370  
Different designs available

---

### SHOWER CUBICAL HANDLE

Product Code: 7620

---

### SHOWER HEADER BAR

Product Code: 7611 - One Side  
7612 - Two Side  
7613 - One Side Slant Type

## Glass Hardware - Railing

**SS RAILING WITH 4 WIRE LOCATOR**

Product Code: 9381 - 4 wire locator

**SS RAILING WITH 2 GLASS HOLDER**

Product Code: 9382

**WOODEN RAILING WITH 2 INBOUND WIRE LOCATOR**

Product Code: 9385

**ORANGE WOODEN RAILING WITH 2 INBOUND WIRE LOCATOR**

Product Code: 9386

**WOODEN RAILING WITH 2 GLASS HOLDER**

Product Code: 9388

**BLUE ACRYLIC RAILING WITH 2 INBOUND WIRE LOCATOR**

Product Code: 9390

**SS RAILING WITH 3 WIRE LOCATOR**

Product Code: 8703

**SS RAILING WITH 2 GLASS HOLDER**

Product Code: 3013

**BLACK WOODEN RAILING WITH 3 INBOUND WIRE LOCATOR**

Product Code: 9387

## Door Control

---
